Dear Mr. Heuer:

Re: NPDES General Permit No. ING670069
INDOT I-69 Line 1 Highway Replacement Project
2300 ft. southwest of CR 300S and CR 950 intersection
Oakland City, Indiana
Gibson County

Our office has received your Notice of Intent (NOI) submittal in regards to the above-referenced facility. We are pleased to inform you that the submittal is sufficient to comply with the NOI requirements in 327 IAC 15-11, Wastewater Discharge Associated with Hydrostatic Testing of Commercial Pipelines. The general permit rule requirements are contained in 327 IAC 15-1 through 15-4 and 15-11. These rules are enclosed for your review. Please review them carefully to ensure your facility is in compliance with all applicable regulations.

At this time, a NPDES general permit identification number is being assigned to each facility that has submitted a NOI letter to comply with 327 IAC 15-11. Due to the fact that 327 IAC 15-11 is a permit by rule, you will NOT be receiving an actual permit. The general permit number will be used as an identification number and should be included on all correspondence submitted to IDEM in relation to this NPDES general permit.

The NPDES general permit number which has been assigned to this facility is:

ING670069

General permit rule 327 IAC 15-11 requires periodic reporting of several effluent parameters. Reporting is to be done using the enclosed state discharge monitoring report form. We have included enough forms to establish a supply several months of reporting. You should duplicate this form as needed for further reporting. This form is also available on the internet at the following web site:

<http://www.in.gov/idem/5104.htm>

Mr. Ronald Heuer

Additionally, you will soon be receiving a supply of the computer generated preprinted federal NPDES DMR forms. Both the state and federal forms need to be completed and submitted on a routine basis. If you do not receive the preprinted DMR forms in a timely manner, please call this office at 317/232-8670.

Coverage for the facility under 327 IAC 15-11, which shall include all outfalls listed on Attachment 1 to this correspondence, shall become effective on **September 1, 2010**, unless a person aggrieved or adversely affected by the acceptance appeals this decision. Coverage under this general permit rule expires on **August 31, 2015**. In order to receive authorization to discharge beyond the date of expiration, the permittee shall submit such information and forms as required by the Indiana Department of Environmental Management no later than ninety (90) days prior to the date of expiration.

Please note that any person who is adversely affected or aggrieved by this acceptance for coverage under the cited NPDES general permit rule may, within eighteen (18) days from the mailing date of this notification, appeal this acceptance by filing a written petition for administrative review with the Office of Environmental Adjudication, in accordance with IC 4-21.5-3-7. This petition constitutes a request for an adjudicatory hearing. The procedure for appeal is outlined in more detail on the attached page.

The Office of Environmental Adjudication will provide parties who request review of this acceptance for coverage with notice of prehearing conferences, preliminary hearings, hearing, and stays or orders disposing of all proceedings. Nonparties may receive such notices without intervening and formally becoming parties in the proceeding by requesting copies of such notices from the Office of Environmental Adjudication.

Please note that in accordance with 327 IAC 15-11-5(c), IDEM shall public notice its decision to accept your facility for coverage under the general permit rule.

If you have any questions regarding this letter, please contact Ms. Sheri L. Jordan at 317/232-8703.

Sincerely,
